

ENVISIONING AN ELECTRIFYING FUTURE
11th Budapest Visual Learning Conference

Barbara Tversky is a cognitive scientist fascinated by the images we create in the world to enhance and express thought. She is Professor Emerita of Psychology at Stanford University and Columbia Teachers College, was President of the Association for Psychological Science and is a fellow of the American Academy of Arts and Science. Her research has spanned memory, categorization, spatial language and thinking, event perception and cognition, diagrammatic reasoning, augmented reality, gesture, and creativity often with colleagues in linguistics, neuroscience, computer science, design, and art. She is the author of *Mind in Motion: How Action Shapes Thought*. E-mail: btversky@stanford.edu.

Planned talk title:
“Thinking with Your Hands”
